"What I like best about *Putting Our Differences to Work* is that *Debbe* teaches us how diversity accelerates innovation to everyone's advantage. This is a win/win/win book in which you and your people win, your organization wins, and the world wins. . . . By the way, *Debbe's* book has two chapters on innovation at the verge, which we wrote together." —**Joel Barker**, Futurist, filmmaker, and bestselling author of *Paradigms*

READER PERSPECTIVE

"What an amazing contribution to the debate on innovation and where it comes from. . .

Putting Our Differences to Work illustrates beyond any measure of doubt that the world has completely misunderstood Diversity – that we are all unique and different for a purpose; that it is not traditional thinking or a particular intelligence or logic that will rescue us. . . . The world needs leaders who both recognise that and who have the ability to tap into these differences – to bring their own humanity to activate the same in others. I am convinced you have discovered a gold mine. . . . what a powerful, profound and compelling argument for DIVERSITY! You give so much HOPE for the future."
